The figure displays eight states of a date and time picker interface:

- Inactive:** Shows the date and time fields with a calendar icon and a clock icon. The time field is set to UTC.
- Hover:** The date and time fields are highlighted with a light blue background.
- Press:** The date and time fields are highlighted with a light blue background.
- Active:** The date and time fields are highlighted with a light blue background.
- Active - Complex:** The date and time fields are highlighted with a light blue background. A dropdown menu is open, showing options: PST, UTC (selected), EST, GMT, and CST.
- Focus:** The date and time fields are highlighted with a light blue background. The time field is set to UTC.
- Disabled:** The date and time fields are disabled and have a light gray background.
- Error:** The date and time fields are highlighted with a light blue background. The time field is set to UTC. A red border and a red exclamation mark icon indicate an error state.
